ACCENTRONIX

The access control system *that keeps you safe*

Product Introduction

ABOUT US

Accentronix is a company based in Cape Town, South Africa that specializes in the development and manufacturing of smart access control and security systems. We have been providing the latest technology in access control and security systems for your home and business since 2004.

We challenge the status quo in everything we do - we believe in thinking differently. This is done by making our products beautifully designed, simple to use, and smart!

Our highly energetic team of engineers are driven to design the best hardware and software on the market; This ensures that we produce high-quality, enterprise-level solutions to our clients and partners. We strive to offer peace of mind for homeowners, security complex administrators, and business owners.

Key focus areas includes designing and manufacturing turnkey access control and monitoring systems for security estates and homes. These products also form part of our home automation solutions.

Other industries we serve include point of sale connectivity, vending/coffee machine telemetry, wireless temperature monitoring, agricultural automation, and asset and utility monitoring.

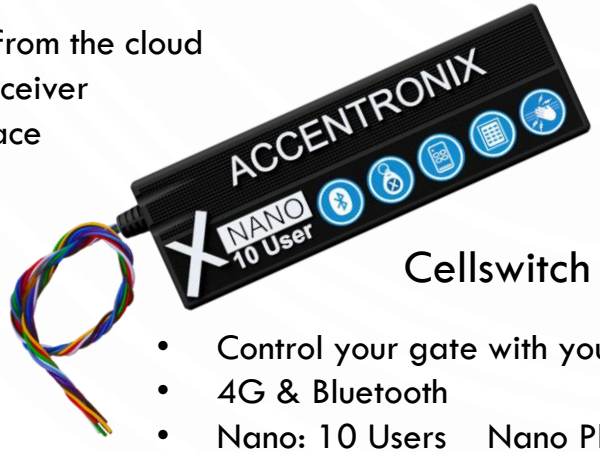
Key Product Range

Cellswitch Infinity

- Control your gate with your mobile phone
- 4G, WiFi & Bluetooth
- Visitor One-Time-Pin with Keypad interface
- 10 000 Users
- Manage remotes from the cloud with the built-in receiver
- Tag reader Interface

Wireless GSM Intercom Range

- Calls directly to your mobile phone.
- Cristal Clear sound via VoLTE
- 4G & Bluetooth
- Visitor One-Time-Pin
- 10 000 Users
- Manage remotes from the cloud with the built-in receiver
- Tag reader Interface



Cellswitch Nano & Nano Plus

- Control your gate with your mobile phone
- 4G & Bluetooth
- Nano: 10 Users Nano Plus: 10 000 Users
- Manage remotes from the cloud with the built-in receiver
- Visitor One-Time-Pin with Keypad interface
- Tag reader Interface
- Advanced Electric Fence Interface

ACCENTRONIX
The access control system *that keeps you safe*

Add-on Products

Nice Remotes

- Manage all your ET Nice remotes online
- Restrict access for domestic and gardening service

Accentronix License Disk Scanner

- We perfected this technology!
- Fully integrated with the Accentronix eco system
- The most advanced and feature rich scanner on the market

Accentronix Wired & Wireless Keypad

- Wired Keypad:
- Backlit Keys
- 30m maximum cable length
- Connects to any of our products

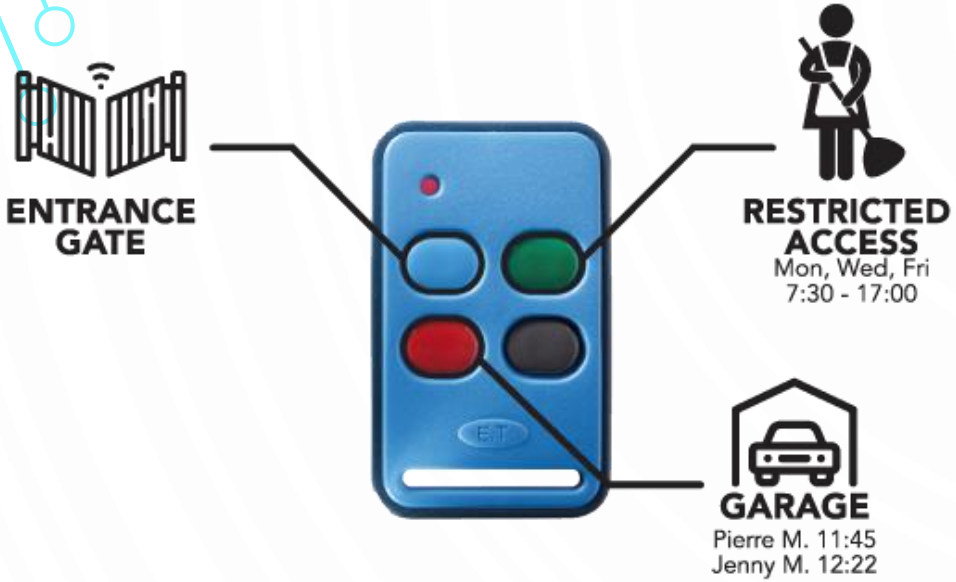
- Wireless Keypad:
- 30m wireless range
- Connects to any of our products
- Battery life: 20 000 OTP's

Accentronix Tags

- Manage your tags online
- Restrict access of users and tags online
- Connects to any of our products

ACCENTRONIX
The access control system *that keeps you safe*

Manage your Remotes online



Link your remotes to the Cloud with our ET Nice integration

- Bulk learn remotes offsite
- Restrict access to specific days and times for specific users
- Easy to use and install
- Detailed log reports and access control notifications
- All our devices has a built-in receiver.

ACCENTRONIX
The access control system *that keeps you safe*

Visitor Access Control

Visitor Access OTP

- Residents can use the Accentronix Smart Home app to invite visitors
- The visitor will receive a WhatsApp or SMS containing a one-time-pin as well as a Google maps link and instructions
- As soon as the visitor uses the pin the resident will receive a notification
- Visitors can be restricted to one entry and one exit or whole day access

Visitor Exit OTP feature

- An OTP will automatically be sent to the resident after they received a call from the intercom
- The visitor will then use this pin to exit the property
- This feature is only available on our Intercom range

- Wired Keypad
- 30 meter range
- Backlit keypad

ACCENTRONIX
The access control system *that keeps you safe*

Accentronix Tags

Mifare 13,56 MHz

Link your Tags to the Cloud for effortless user control

- Bulk learn Tags offsite
- Restrict access to specific days and times for specific users
- Easy to use and install
- Detailed log reports and access control notifications
- Simply connect the tag reader to any of our devices

ACCENTRONIX
The access control system *that keeps you safe*

Tag Readers

- Link multiple readers together over the cloud
- Tags will still work when the internet is down
- Seamlessly set up user restrictions to specific readers on a site
- Bulk learn and manage tags offsite

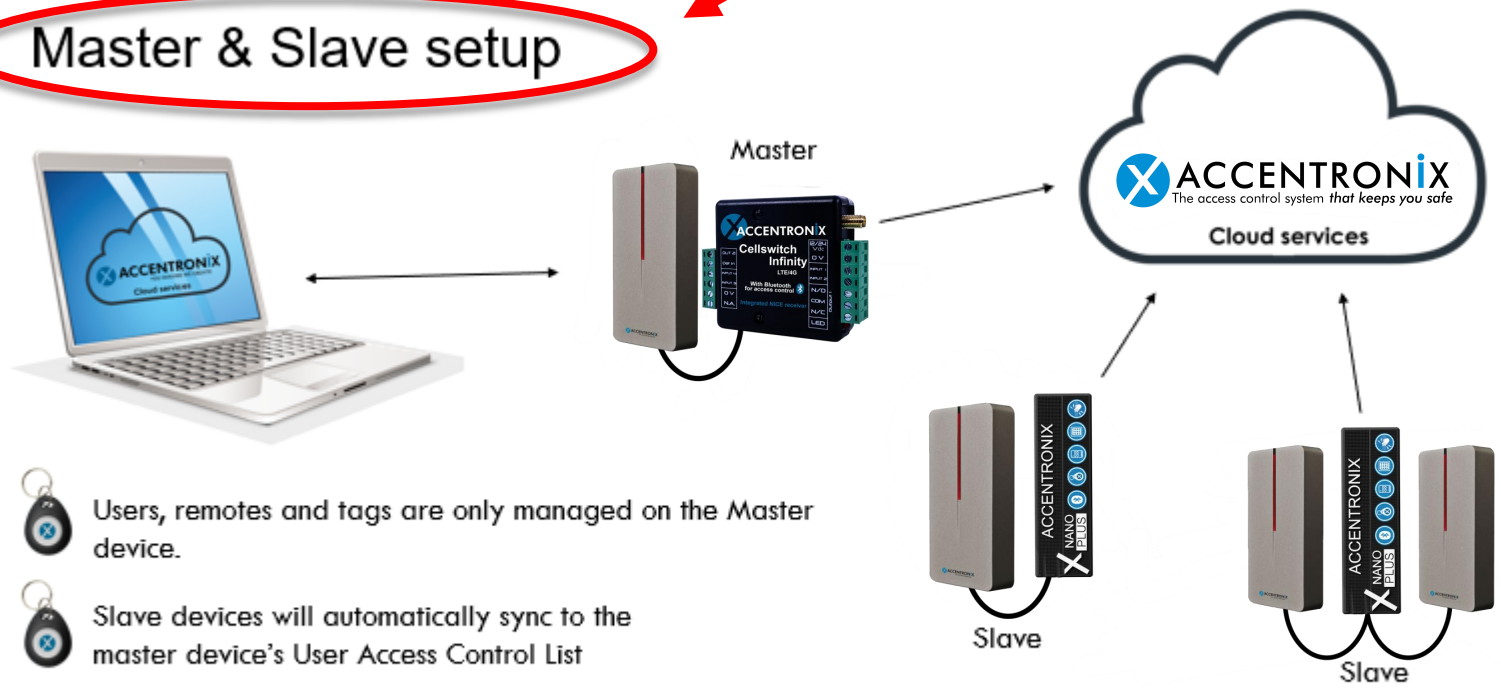
Linking devices together over the cloud

Access control users | Restricted Users | Manage Welcome SMS | Linked Devices

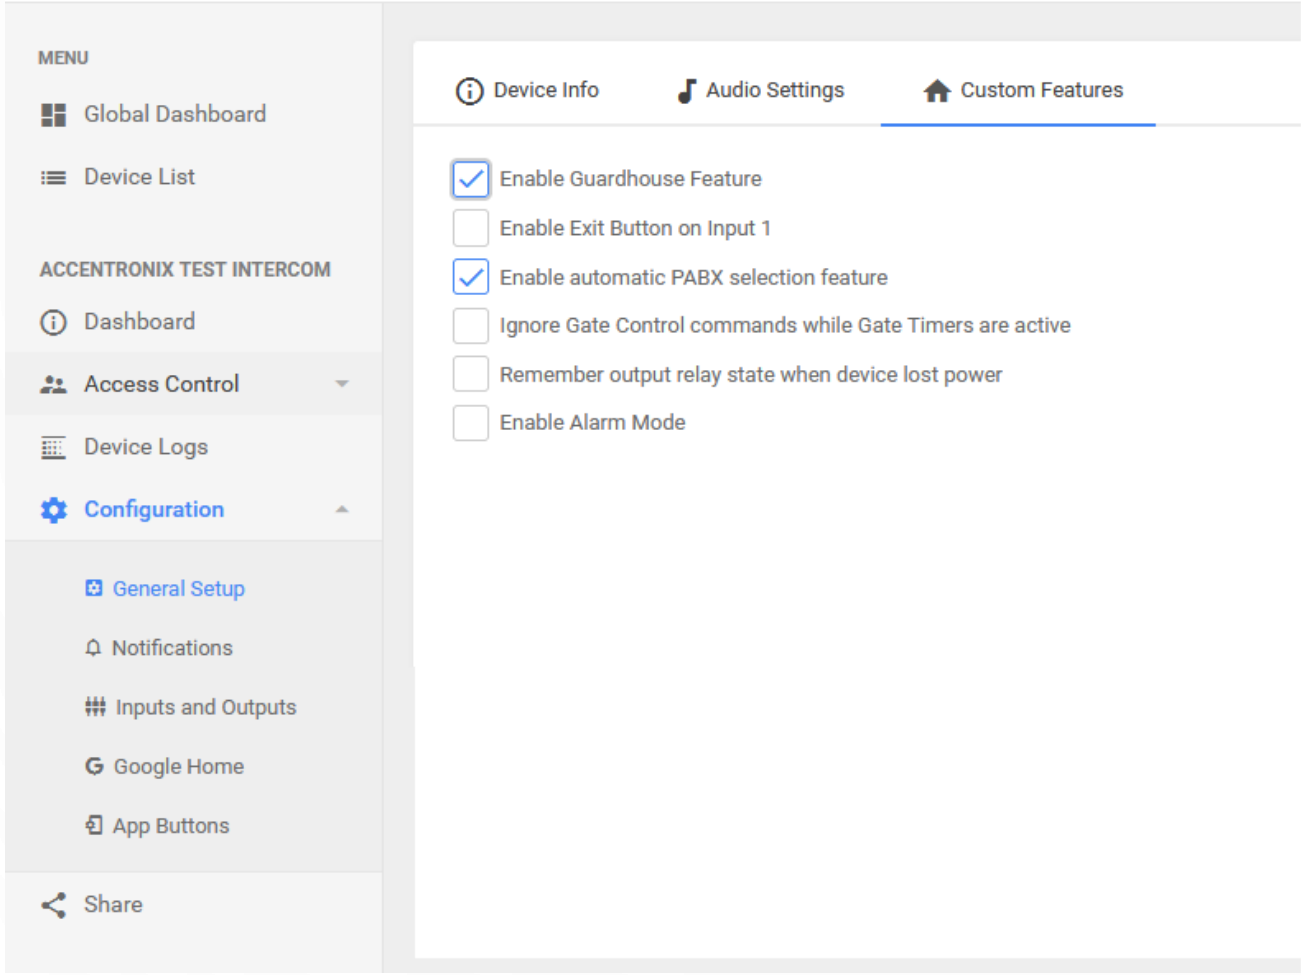
Master & Slave setup



- Users, remotes and tags are only managed on the Master device.
- Slave devices will automatically sync to the master device's User Access Control List
- Each Slave device will still use their own unique device settings i.e. they will not use the Master device's settings.

Select a Master device to link to

Advanced settings



These features allows you to add additional call functions to your intercom system like automatic selection on a PABX answering service and allowing residents to call to an intercom inside a guardhouse to speak to the guard.

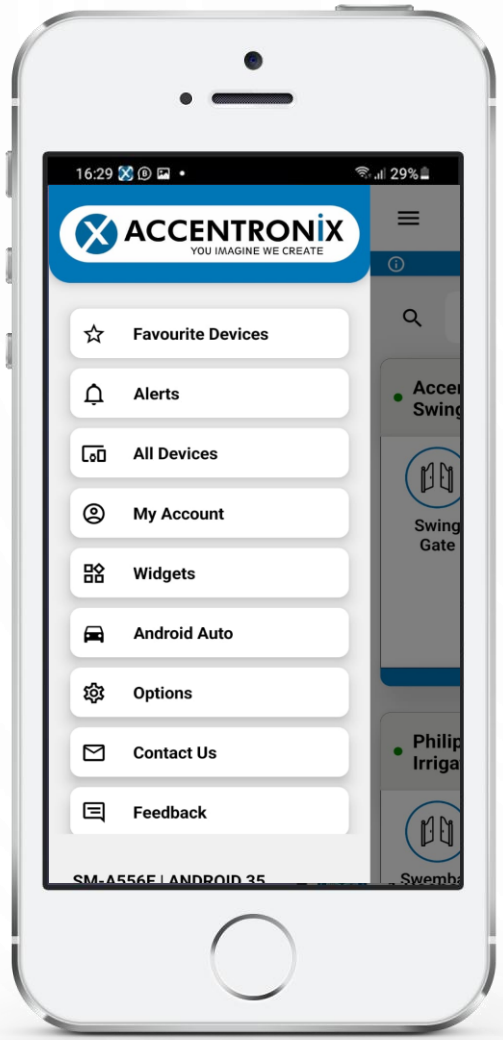
Accentronix Smart Home app



Our Accentronix App is a great tool for any installer to use when in the field as well as for everyday use by a user.

Installers can access the online portal for any setup changes.

Users can set up buttons for their devices to control and monitor all their devices.

Our Accentronix Smart Home app will also send all your device notification so that you can see any alerts that come from your gate or electric fence.
