Link your Remotes to the Cloud

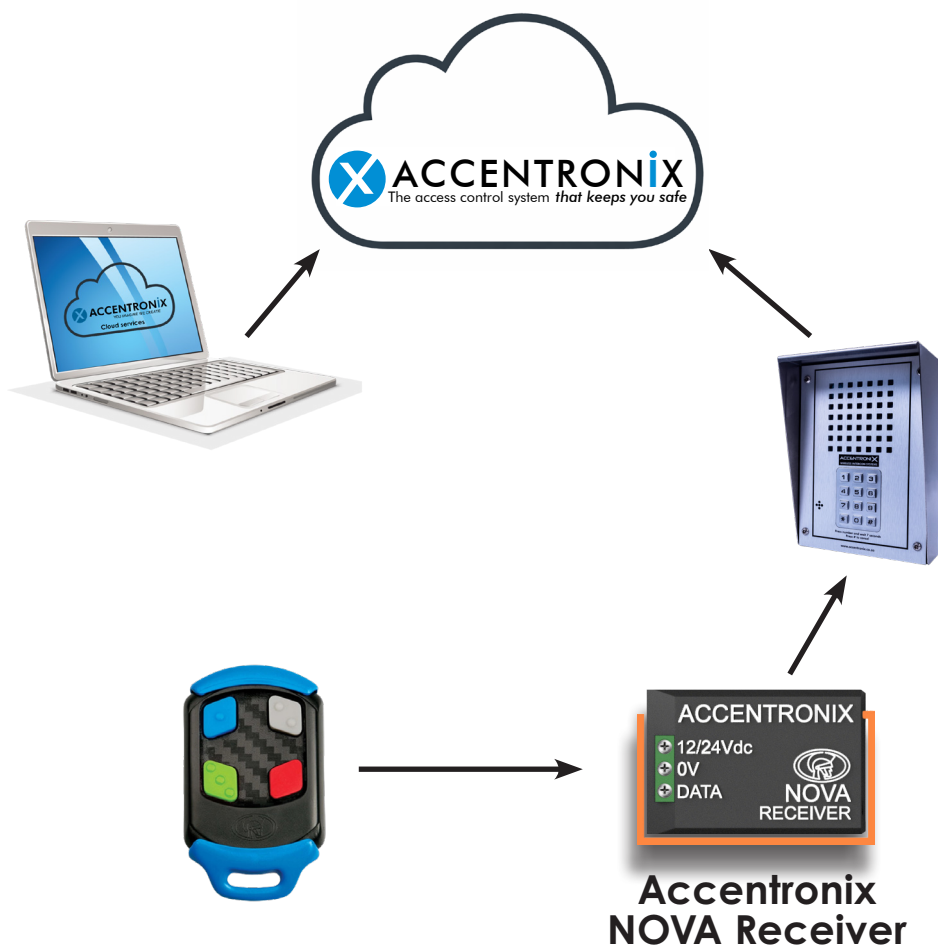

Smart Access Control System

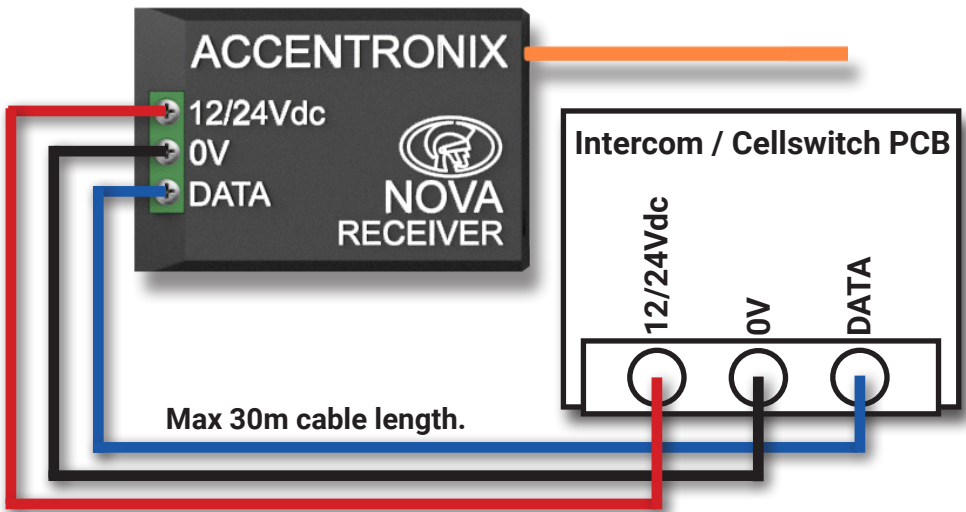

Designed for seamless integration with all Accentronix Intercom and Cellswitch devices.

NOVA Remotes - In the Cloud

- Restricted time-based access control for domestic and gardening services specific days and times.
- Managing remotes couldn't be easier with the Accentronix Compatible NOVA Receiver.
- Monitor, manage and block remotes and users from anywhere.
- Effortlessly bulk learn remotes off-site.
- Comprehensive log reports.
- Feature-rich, easy to use website for centralized management.

Connection on Intercom or Cellswitch

HOW TO LEARN A REMOTE

1. Log into Accentronix and go to the 'Remotes' tab next to an existing user.
2. Click on 'Quick learn remote' and press any button on the remote 3 times.
3. Press 'Update device' after adding remotes and users.

Note:

- You do not have to be on-site to learn a remote. Simply change the 'gateway' option to any intercom or cellswitch device close to you. This allows you to add remotes to a site while you are at the office.
